

ST-48 Hydrogen Sulfide (H₂S) Combustible Gas Monitor

ITEM#: 95122

Product Summary

The PureAir ST-48 Hydrogen Sulfide (H₂S) Combustible Gas Monitor is ideal for facilities that require continuous monitoring of hydrogen sulfide gas in hazardous areas. The enclosure is specifically designed to prevent an explosion. The monitor is best suited for environments such as refineries, natural gas locations, wastewater treatment facilities, paper mills, and the oil and gas industry where hydrogen sulfide is present. Operator interface is via a menu driven magnetic keypad allowing full access without opening the enclosure. The monitor is housed in a NEMA 7 explosion proof enclosure suitable for Class 1, Division 1 and 2, Group B, C, and D.

Industries That Need This Product

- *Refineries*
- *Natural Gas Operations*
- *Wastewater Treatment*
- *Paper Mills*
- *Oil and Gas*
- *Iron Smelting*

FEATURES

- Non-Intrusive one-man calibration
- Explosion-Proof enclosure Cl. 1, Div. 1 & 2, Gr. B, C, D
- 6" Back-lit LCD Display with Bargraph and Trending
- 4-20mA Output
- User Adjustable Dual Alarm Relays
- RS-485 Modbus Optional
- NRTL/ATEX Certifications

Why Choose PureAir?

PureAir Monitoring Systems, Inc. is an industry leader in oxygen monitoring and gas detection. For over 20 years, we have dedicated ourselves to the safety of our clients, and the customers they serve, by manufacturing monitors that are long-lasting, accurate, and reliable. PureAir takes pride in providing exceptional customer service along with 24/7 availability to our technical service department.

Why an ST-48 Hydrogen Sulfide (H₂S) Combustible Gas Monitor?

The PureAir ST-48 Hydrogen Sulfide Combustible Gas Monitor is designed for continuous monitoring where hydrogen sulfide, a toxic, combustible gas is used, and the risk of an explosion, or a leak pose a hazard to personnel.

Set Up

Secure the ST-48 monitor to the wall so the display is visible, and connect the monitor to the power source. The ST-48 will begin sampling hydrogen sulfide (H₂S) after a brief startup period. Hydrogen Sulfide levels are displayed clearly on the screen for easy access and visibility.

Top Advantages of ST-48 Combustible Gas Monitor

Gas Detector Alarms

PureAire's ST-48 Combustible Gas Monitor comes with 2 adjustable alarm set-points that can connect to a horn/strobe, exhaust fans, 8 channel controller, remote display, or into building systems. Alarm signals also can tie into automatic shut-off valves when hydrogen sulfide levels reach an unsafe OSHA threshold.

Easy To Use

The ST-48 Combustible Gas Monitor provides constant monitoring with little to no adjustments, saving you time and money while allowing the monitor to operate seamlessly.
